Arrests

The figures listed below reflect the number of individuals arrested for the year of 2009 and previous year 2008. It should be noted that multiple charges are sometimes filed against a single individual. The numbers below do not reflect a tabulation of multiple charges filed against an individual.

When comparing 2009 to 2008 there was a significant decrease in arrests. This is partly due to our goal of reducing juvenile arrests, and increasing the use of Station House Adjustments. In 2009 there were (146) juveniles arrested, compared to (262) juveniles arrested in 2008. This represents a 44% decrease in juvenile arrests.

In addition, the Middle Township Police Department had not received its grant money from the State for the “Drunk Driving Enforcement Fund” for the past two years. On December 16, 2009, the department did receive the grant, including all back surcharges in the amount of **\$37,356.99**. PATROL DIVISION

Patrol is the largest Division of the Police Department. Its primary responsibility is responding to calls for service from the community. These can range from neighborhood disputes, domestic violence incidents and traffic accidents, to burglaries in progress and death investigations.

As the First Responder to criminal complaints, patrol officers are responsible for seeing to the medical needs of anyone involved, interviewing witnesses, recognizing and preserving evidence, determining whether, in fact, a crime has been committed, and identifying and ultimately arresting those responsible.

Officers of the Patrol Division are also expected to provide proactive services such as traffic enforcement, crime detection and suppression, conducting business and property checks, and initiating contacts with community members to further the department’s commitment to Community and Problem Oriented Policing.

MIDDLE TOWNSHIP POLICE DEPARTMENT

Officers assigned to the Patrol Division are divided into four (4) squads. These squads are responsible for 24-hour street coverage, seven days a week. Each squad is supervised by a Sergeant and has seven patrol officers.

Field Training Officers: (FTO's)

All police officers hired by the Middle Township Police Department must attend and successfully complete a New Jersey State Certified Police Academy. This department predominantly uses the Cape May County Police Academy. Upon graduation, all officers return to the department and are required to successfully complete a Field Training Program. The FTO program is an additional 3 months of intensive training and evaluation where the probationary officer is paired up with an experienced officer. The FTO officer has been carefully selected and trained as a Field Training Officer. It is the goal of the FTO program to prepare and develop probationary officers to act efficiently, effectively and safely in a solo patrol capacity.

The following Officers are designated as FTO:

Corporal James Dougherty

Patrolman James Loftus

Patrolman Dave Hagan

DETECTIVE DIVISION

The Detective Division, otherwise known as the Major Crime Unit (MCU), is charged with the responsibility of reviewing all incident reports and activities in order to prioritize and investigate criminal activity. Detectives work cases that are either assigned to them or come to them while on duty or on-call. They also initiate case investigations.

During 2009, Detective Allan McClure was promoted to Detective First Class.

During 2009, the Detective Division generated **(162)** investigations, conducted **(1730)** supplemental or follow-up investigations, and made **(184)** arrests.

The Detective Division also conducts any and all police recruit, police employee employment background investigations. The Division also assists the Middle Township Business Administrator and his staff in conducting any and all needed internal Township wide investigations.

Some notable cases handled by the Major Crimes Unit in 2009 include:

- Arrest of a step-father for Aggravated Sexual Assault upon his step-daughter who was age 6-12 at times of occurrence.

Detective Clint Stocker primarily oversees the registrants with the assistance of other detectives. Registrants are required to re-register anytime they move to a new address within the township, even as minimal as a change to a different apartment or motel room. Registrant’s must also register upon moving into Middle Township from another area as well as notify our agency when they are moving to another jurisdiction.

New registrants and/or moves during 2009: **(36)**

Low count for 2009: **(53)**

STREET CRIMES UNIT

In 2002 the Middle Township Police Department formed a Street Crimes Unit. That unit was established to combat crimes against persons and property and to investigate drug dealing and use within Middle Township. Almost instantly the unit was a success, solving crimes and arresting drug dealers and users. But, due to manpower problems, the unit had to be disbanded and the officers had to go back onto patrol.

MIDDLE TOWNSHIP POLICE DEPARTMENT

Realizing the value of the Street Crimes Unit, it was brought back into service in November of 2007. The unit is made up of (3) officers: Sergeant Don Nelson (Unit Leader), Patrolman Mark Higginbottom, and Patrolman John Norton. The Cape May County Prosecutors has had a change in mission as a result of the Governor's initiative last year. Street level drug investigations handled by and investigated by the Prosecutors Office in the past are now the responsibility of the local police departments.

The members of the unit work in plain-clothes capacity and utilize unmarked/undercover style vehicles. They work closely with the Patrol and Detective Divisions as well as with the Cape May County Prosecutors Gangs, Guns, and Drug Unit. The unit combats narcotics crimes, crimes against persons, and crimes against property throughout Middle Township. The unit also serves as the intelligence-clearing house for any and all organized gang related involvement within the township. The unit executes search warrants and seizes contraband. As a result of many of the seizures, monies seized and or property seized is often forfeited through the court system and a percentage is returned to the police department to be placed in a forfeiture fund, with this money to be used by the department for law enforcement purchases or training.

During the year of 2009 the Unit members prepared and executed **(29)** search warrants for narcotics offenses, conducted **(39)** investigations, prepared **(236)** supplemental or follow up investigations and arrested **(110)** subjects. Members also gathered intelligence information and prepared **(07)** intelligence reports and seized a total of **(\$1,181.00)**.

In 2009, the Street Crimes Unit participated in a multi-jurisdictional narcotics investigation with the Cape May County Prosecutors Office Gangs, Guns and Drug Unit and the Drug Enforcement Agency (DEA). This investigation led to a Title III Wiretap case that lasted several months. At the end of the investigation, **(9)** individuals were arrested, **(09)** Search Warrants were executed simultaneously, over **(14)** ounces of cocaine, a quantity of marijuana and over **(\$80,000.00)** in cash was seized.

The Street Crimes Unit aggressively pursues and registers confidential informants. This pool of information has led to the arrest of individuals and the clearing of crimes such as: Theft of Motor Vehicles, Possession of Weapons, Drug Distribution and Criminal Mischief. The intelligence gathered by the unit has also resulted in locating Missing/Endangered children reported missing to the police department.

Notable 2009 cases include the finding of **(02)** marijuana growing facilities and the seizure of **(52)** marijuana plants. Two **(02)** guns were also seized in connection with CDS investigations.

SCHOOL RESOURCE OFFICERS

The School Resource Officer (SRO) Program is a collaborative effort with both the Middle Township School District and by a contract with the Cape May County Technical High School. Presently two (2) officers are assigned as School Resource Officers. Corporal Jeff Devico is primarily assigned to the Middle Township High School. Officer Sharon Price is assigned to the Cape May County Technical High School. Both officers report to Sgt. D. Nelson with the Street Crimes Unit.

The School Resource Officer Program has two main components. The first is designed to enhance the relationship between the school district, its students, teachers/administrators and the police department. The daily communication between police and school officials prevents many problems and mitigates existing problems for both the school and the police. The second component is to provide a law enforcement presence in all district schools. This is accomplished through the use of patrol officers who, as part of their duties, conduct walk through visits to the facilities. The second component is to provide training and informal counseling to students, staff and parents.

In 2008, in accordance with an Attorney General mandate and under the supervision of Sergeant Don Nelson, a comprehensive School Security Plan involving over (6) different agencies was prepared and reduced to paper after a number of work-sessions. This plan defined the roles and responsibilities of each agency in the event of a critical incident at any of the Middle Township Schools.

The plan for the Cape May County Technical High School was completed in 2009. School security/action plans were completed for Cape Christian Academy, and the State Department of Human Services School. All previous plans were reviewed/updated in 2009.

MIDDLE TOWNSHIP POLICE DEPARTMENT

The School Resource Officers conducted (122) Investigations during the school year, initiated (59) Arrests, conducted (63) Supplemental or follow up reports.

COMMUNICATIONS

The Middle Township Police Department Communications Center is staffed 24 hours a day, seven days a week, by full time Public Safety Telecommunication Operators. They are the initial point of contact for a majority of the public requiring police services. They are an extremely vital component in delivering effective police services to the community and their dedication and importance should not be overlooked. Often times they are required to maintain a reassuring and calming demeanor in the face of extraordinary circumstances in order to assist the caller and the police officer responding to an emergency. All of the Public Safety Telecommunication Operators are required to receive and maintain certification by the Office of Emergency Telecommunications Services in the Department of Law and Public Safety. Some of the examples of work performed include:

- Receive and respond to telephone requests for emergency services
- In response to medical emergencies, provide First Aid or CPR instructions to stabilize the medical condition of persons until the arrival of medical assistance.
- Relay all vital information to responding police officers
- Utilize radio, telephone, or other electronic equipment to dispatch specific law enforcement, fire department or medical units to the scene of an emergency.
- Refer non-emergency situations to the appropriate public or private agencies
- Make data entries into the police department's computer system as well as various systems databases such as the National Crime Information Center (NCIC) and the State Crime Information Center (SCIC).

The Middle Township Police Department employs eight (9) full time Telecommunication Operators, (2) assigned to each of the four patrol squads. The department employs an additional four (4) part time communications operators. It is mandatory that at all times there are two (2) operators present in the dispatch center.

*Communications Operator Eagan has been out on disability since August due to an off duty motor vehicle crash. Operator Ted Farina was hired full time to fill Eagan's position. The following qualified and dedicated employees fill this highly important and stressful position:

Senior Operator Diane Shinn
Senior Operator Jennifer Graham
Operator Bob Eagan
Operator Dustin Gaskill
P/T Operator Maureen Leitenberger
P/T Operator Lauren Anzelone

Senior Operator Madonna Sill
Senior Operator Keith Woodrow
Operator Bill Mulligan
Operator Ted Farina
P/T Operator Lauren Long
P/T Operator Brenda Camp

MIDDLE TOWNSHIP POLICE DEPARTMENT

During 2009 Middle Township Police Department Telecommunications Operators processed some **(49,448)** calls for service into the Computer Aided Dispatch (CAD) system.

Operators answered a total of **(10,654)** emergency 911 calls for service; the average time to answer 911 calls was **3 seconds**.

The Communications Operators also monitor and answer calls coming into headquarters on the department's main operating phone number, (609) 465-8700. A review of the Audio Log Server reveals that the Communications Operators handled the below number:

(56,429) Telephone calls and (10,654) 911 calls for a total of (67,083) calls per year or (183) calls per day.

Senior Operator Jennifer Graham is a certified 911 Instructor. Communications Operator Bill Mulligan is a Certified EMD – Emergency Medical Dispatch Instructor and 911 Instructor. In 2009, both Graham and Mulligan attended Method of Instruction training, and now are state certified to instruct.

CITIZEN COMPLAINTS INTERNAL AFFAIRS

The Middle Township Police Department is committed to providing law enforcement services that are fair, effective, and impartially applied. Toward that end, officers are held to the highest standards of official conduct and are expected to respect the rights of all citizens. Officer adherence to these standards, motivated by a moral and professional obligation to perform their job to the best of their ability, is the ultimate objective of this agency.

The effectiveness of a law enforcement agency is dependent upon approval and acceptance of police authority. The department must be responsive to the community by providing formal procedures for the processing of complaints from the public regarding individual officer performance.

The purpose of the Departments Internal Affairs Policy is to improve the quality of law enforcement services. Citizen confidence in the integrity of the police department increases through the establishment of meaningful and effective complaint procedures. The confidence engenders community support for the police department. Improving the relationship between police and the citizens they serve facilitates cooperation vital to the department's ability to achieve its goals. An effective disciplinary framework also permits police officials to monitor officer's compliance with department policies and procedures. Adherence to established policies and procedures assist officers in meeting department objectives while a monitoring system permits managers to identify problem areas requiring increased training or direction. Finally, the Internal Affairs Policy ensures fairness and due process protection to citizens and officers alike.

MIDDLE TOWNSHIP POLICE DEPARTMENT

The internal affairs process is also used to identify and correct unclear or inappropriate agency procedures. In addition, it will highlight organizational conditions that may contribute to any misconduct, such as poor recruitment and selection procedures or inadequate training and supervision of officers.

In 2009 there were a total of **(23)** Internal Affairs Investigations conducted compared with **(19)** in 2008. Of the (23) Investigations handled this year, **(6)** resulted in disciplinary action taken against the officer.

Below is a list of the type of cases and their dispositions received in 2009.

2009 Disposition

Excessive Force:	(1) Sustained - Internal Discipline Action, (2) Exonerated, (1) Pending.
Improper Entry:	(1) Unfounded
Demeanor:	(1) Exonerated, (1) Not Sustained, (1) Unfounded, (1) Pending
Other Rule Violation:	(5) Sustained - Internal Discipline, (4) Exonerated, (1) Not Sustained, (2) Unfounded, (1) Pending
Other Criminal Violation:	(1) Unfounded

The Middle Township Police Department works closely with the Cape May County Prosecutors Office and many of the internal affairs investigations are worked jointly between both departments. This is to ensure that the highest quality of investigation is conducted.

The Internal Affairs Division is commanded by Captain Paul Fritsch and Lieutenant Christopher Murphy.

TRAINING AND EDUCATION

One of the most important responsibilities of a law enforcement agency is the training and education of all its personnel. The Police Department has in place a comprehensive policy that addresses the organization and administration of the entire training process, including recruit training, in service training, roll call training and specialized training.

MIDDLE TOWNSHIP POLICE DEPARTMENT

Late in 2008, Ptl Marcus Phillips was reassigned and a training unit was formed. There was a need to make the training officer a full time position. Ptl Phillips keeps track of all the mandatory training records. Ptl Phillips recognizes problems/trends and then formulates strategies for training to deal with the issue. Along with his training duties he is the Court Security Officer and handles the walk in fingerprint requests. This alleviates the squad working from having an officer come into the station from Patrol. This may sound trivial; but on fingerprint days there is a burden put onto patrol. Ptl Phillips also fills in as a School Resource Officer when the assigned officers use a vacation or sick day.

The men and women of the Middle Township Police Department attended a wide variety of in service training courses throughout 2009 including but not limited to:

- Blood borne Pathogens
- Property and Evidence
- Firearms Qualifications
- SWAT Training
- Hostage Negotiation Training
- Dive Team Training
- ATV Operation Training
- Assault Rifle Qualifications
- Active Shooter Response
- Report Writing
- CPR recertification

SPECIAL UNITS

SWAT Team (Special Weapons and Tactics)

MIDDLE TOWNSHIP POLICE DEPARTMENT

The Middle Township Police maintained and operated its own SWAT Team for approximately 20 years. In 2007 the Cape May County Prosecutors Office with the cooperation of the Cape May County Chiefs of Police Association formed a Regional Countywide SWAT Team. In 2008 Wildwood Police Department came on board. The County Team was then divided into three geographical regions; North, which encompass Middle Township, South, and Island divisions. Every Police Department in the county has representation on the team.

Team members undergo a very rigorous training schedule, tactically, mentally, and physically. These members work with their respective agencies as officers doing normal duties, but when necessary are called upon to conduct SWAT operations. They are on call 24 hours a day seven days a week.

The position of a SWAT member is voluntary. Selection to become a member of the team is very competitive. Their own department must select officers. These officers are selected based upon their past performance and attitude. Then they must attend a rigorous two-week SWAT course.

Team members must train at least twelve (12) hours per month and training sessions are held two times per month.

The North division was called out on **(16)** assignments in 2009.

Middle Township Police Officers assigned to the Regional Swat Team include:

CHALLENGES/PROPOSALS 2010

Manpower Related Issues:

- Middle Township has experienced considerable growth within the last five years. This growth has increased the demand for our services and has stretched the Police Department thin. The Middle Township Police Department has lost four officers through attrition in the last few years and now stands at 48 officers. Any further reductions would cause significant modifications to the existing structure of the Police Department and require changes to the delivery of police services. Our hope is to stop attrition and eventually gain some of the positions lost when the economy recovers and state/local budgets stabilize.

Equipment:

- Complete the upgrade of our Server Room and Communications center.
- Purchase E-Ticket software.
- Complete purchase of ballistic helmets for officers.
- Purchase mountable/portable radar display signs
- Purchase Radio Relays.
- Purchase Portable Radios.
- Purchase Motorcycle Helmets with radio attachment.

IT Position:

- The Middle Township Police Department has over (70) computers, (3) servers, and now (23) Digital Video Recorders in Patrol vehicles. In addition, numerous

MIDDLE TOWNSHIP POLICE DEPARTMENT

software applications are utilized by the Police Department. This increase in technology has led to more efficient and productive officers, dispatchers, and records personnel. The maintenance and upkeep for this technology has become significant. We are utilizing sworn personnel, specifically Det. Sgt. D. Nelson to handle these duties. We strongly recommend the Township hire a full time IT Person, at a fraction of a sworn officer's salary to handle these responsibilities.

Accreditation:

- The Middle Township Police Department is up for reaccreditation this upcoming June. Sgt. W. Adams has been assigned as the Accreditation Manager and retired Captain S. Webster has been brought back on a part-time basis to assist Sgt. Adams. Our goal is to achieve reaccreditation for another three year term this year.

Achievement of 2009 Goals

Patrol Division: 2009 Goal Results

In 2009 the Patrol Division had set three Goals. We were successful on two of the goals and fell short on one. The first goal was to increase the safety of motorists on State Highway 47. This safety initiative was very successful. There were no fatal crashes on State Highway 47. Serious injuries were reduced by 14%. Crashes involving impaired drivers dropped by 50%. This was accomplished through increased traffic enforcement, a public awareness campaign, and a driving while intoxicated awareness seminar at Middle Township High School.

Patrol units increased Police presence on State Highway 47. The amount of traffic stops increased 275% compared to the previous year, and summons issued were increased by 305%. Sergeant Richard McHale hosted an impaired driving seminar at the Middle Township High School. The seminar targeted young drivers in the school. The purpose was to raise awareness of the tragedies of impaired driving. Prior to the start of the busy summer season, the Police Department hosted a press conference on State Highway 47. Philadelphia news agencies were present to target the Philadelphia metropolitan population. Throughout the summer season an unoccupied patrol car was parked in different locations along State Highway 47. All of these tactics led to a successful campaign.

The second goal was to reduce the number of drunk drivers on the roads of Middle Township and to increase driving while intoxicated arrests by 10%. Arrests increased by

MIDDLE TOWNSHIP POLICE DEPARTMENT

4%. Although our goal was not met, it was not a complete failure. We saw a slight increase in arrests and a significant decrease in driving while intoxicated crashes along State Highway 47. This is an effort that will be renewed in 2010.

The third goal was to reduce the number of Juvenile offenders introduced into the Juvenile Justice system and to increase the use of Station House Adjustments. In 2009 juvenile arrests decreased significantly to (146) compared to (262) in 2008. This is a 44% decrease. In 2007 the Attorney General renewed an initiative to compel police agencies to divert juveniles away from the Justice System and to increase the use of Station House Adjustments. In 2009 Middle Township Police and the Cape May County Prosecutors office came together and were able to streamline the reporting form. This made the process easier for the officer.

Major Crimes Unit: 2009 Goal Results

In 2009 the Major Crimes Unit set two goals. One goal was attained, and the second was partially attained (due to financial constraints). Goal #1 was to more efficiently and effectively handle the reception, storage and disposition of evidence/property collected by the police department. During 2009 officers were given refreshers, primarily at their roll calls on the proper methods of collection and documentation of evidence and property. When errors occurred they were immediately addressed. Evidence/property management systems were evaluated, however purchasing an electronic system was cost prohibitive during this year. A complete audit was planned in conjunction with the implementation of a new evidence system. Since the system was unobtainable, and a complete audit would be labor/time intensive, it was determined that an audit will not be done until a new system is purchased. Throughout 2009 a large quantity of evidence/property was purged; either returned to its owner/finder and/or disposed of. It is anticipated that a complete audit will take place when finances allow the purchase of an evidence/property management system.

The second goal of the Major Crimes Unit was to improve how criminal activity was assessed and then communicated to the public. This goal was attained in the following ways: News media releases were no longer faxed out; they were constructed as e-mails, approved and sent to the various media outlets. The speed at which information is now released has increased due to this and the use of Blackberry phones by heads of the agency. An internet site has been set up on Facebook where information as to recent crimes/arrests/events/etc.. is posted for the public. The site has over 2200 fans as of January 2010. The Middle Township website has also been updated to include CrimeReports.com which shows a map with locations of crimes. A weekly police blotter

MIDDLE TOWNSHIP POLICE DEPARTMENT

is composed and e-mailed to the media. It is also posted on the township website. All these have proved to be an asset to the police department as tips from the public have increased. The public has a greater knowledge of what is going on and now has greater avenues to contact our agency.

Street Crimes Unit: 2009 Goal Results

The Street Crimes Unit set two goals for 2009. The first goal was to handle the receiving/storage/dissemination of intelligence in a more efficient and effective manner. During 2009, all Middle Township intelligence was packaged and transported to the Cape May County Prosecutor's Office. Their office initiated a new electronic web-based intelligence sharing system to be utilized by Cape May County law enforcement agencies. Paper forms are no longer utilized. All submissions are done electronically. The intelligence was evaluated and purged (if necessary). Sergeants and senior staff were trained in-house on using the system, and all other personnel shall be trained in the upcoming year.

The second goal was to increase the number of informants registered in 2009 by 10% as compared to 2008 and to expand the Street Crimes tip-line. There were eleven (11) new informants developed in 2009. This did not meet the 10% goal set (which would have been 16), however it should be noted that the unit was not operating at full strength for a quarter of the year due to Sgt. Nelson being on light duty. The unit's tip line was expanded through a link on the township's website. It has also been advertised on the Police Department Facebook page.

School Resource Officers: 2009 Goal Results

The 2009 goal for the School Resource Officers was to improve and establish security plans for all schools within Middle Township. This goal was met. A security/action plan was developed for the Cape Christian Academy as well as the New Jersey State Department of Human Services School. The Cape May County Technical High School plan was reviewed and finalized. All plans were reviewed and updated as needed to include personnel changes, structure changes and other miscellaneous items. Work sessions were also held with school administrators and police/fire/medical personnel.
